

# OneGIS and Tadpole Technology Group Announce Agreement to Provide Public Utilities Enterprise ArcGIS Data Management

**Carlsbad, CA, July 18, 2005** – The Geospatial Solutions Division of Tadpole Technology Group and OneGIS, Inc., have announced a formal business relationship to provide public utilities complete enterprise GIS data management solutions, based on the industry leading ArcGIS™ software from ESRI.

Under the terms of this agreement, OneGIS will resell, implement, and support Tadpole Technology's GO! Sync™ product line. By leveraging Tadpole's nearly 15 years of experience in the mobile GIS software market, OneGIS will be able to offer a complete enterprise solution for managing data in the field in addition to its current ArcGIS desktop application implementation and integration service offerings.

"The goal of OneGIS is to provide GIS solutions based on best of breed products," states Chris Cirillo, OneGIS President. "The award winning GO! Sync product line is an ideal offering for OneGIS because it fits with our 'one platform, one solution' approach. We look forward to offering Tadpole's mobile and enterprise GIS products to our customers."

"Tadpole Technology continues to expand its business partner program with a focus on premier technology partners and service providers," states Don Fryhover, Director of Business Development. "OneGIS has a focused commitment to bringing customer's world class products and services, and that makes them an ideal partner for us."

## **About OneGIS**

OneGIS, Inc. is a full service consulting and outsourcing firm specializing in the development of turnkey GIS solutions for the electric, gas, water, wastewater, storm water, telecom and municipal government markets. Its goal is to provide off-the-shelf solutions that provide significant business benefits to organizations implementing Geographic Information Systems. OneGIS focuses its development, customization, and implementation efforts solely on ESRI-based applications, thus offering solutions on the best GIS platform available in the market place.

## **About Tadpole**

The Geospatial Solutions Division of Tadpole Technology Group provides enterprise infrastructure software solutions to support the management, replication and distribution of geographic data within and between organizations. Tadpole Technology is an ESRI Authorized Business Partner.
